

# HEAVY-DUTY FOLDING PARKING BARRIER

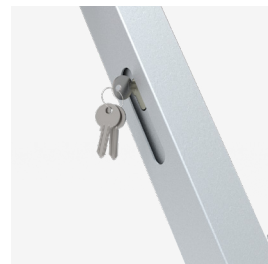

ELECTRO-GALVANISED

FULLY HOT-DIPPED GALVANISED

HIGH VISIBILITY

SECURE LOCKING

SEAMLESS, STRONG WELD

# Advantages +

**SEAMLESS, STRONG WELD**  
Strong welding to prevent cracks.

**DURABLE MATERIAL**  
Made from Ø50 mm mild steel tube with galvanised surface treatment for heavy-duty parking control and frequent use.

**HIGH VISIBILITY**  
Two red reflective strips improve visibility in low light and at night, reducing accident risk.

**SECURE LOCKING**  
Built-in lock keeps the barrier upright and helps prevent unauthorised parking.

**FOLDABLE AND COMPACT**  
When not needed, it can be folded down easily, taking up less space.

**QUICK INSTALLATION**  
Simple fixing on asphalt or concrete with included M10 hot-dip galvanised expansion bolts.

PRODUCTS	OVERALL DIMENSIONS	LOCKING SYSTEM	SURFACE TREATMENT	MOUNTING HARDWARE
 	Length: 880 mm (34.7") Height: 440 mm (17.3") Tube diameter: Ø50 mm (1.97")	Automatic self-locking system with 3 keys	Electro-galvanised  Fully hot-dipped galvanised (after welding)	M10 hot-dip galvanised expansion bolts
